#### TYPOGRAPHY

Grommet utilizes Metric for all typography. If you don't have Metric installed, please visit www.hpe.com/design/resources/metric You should not be able to see any of the red guides.

# Metric Typeface

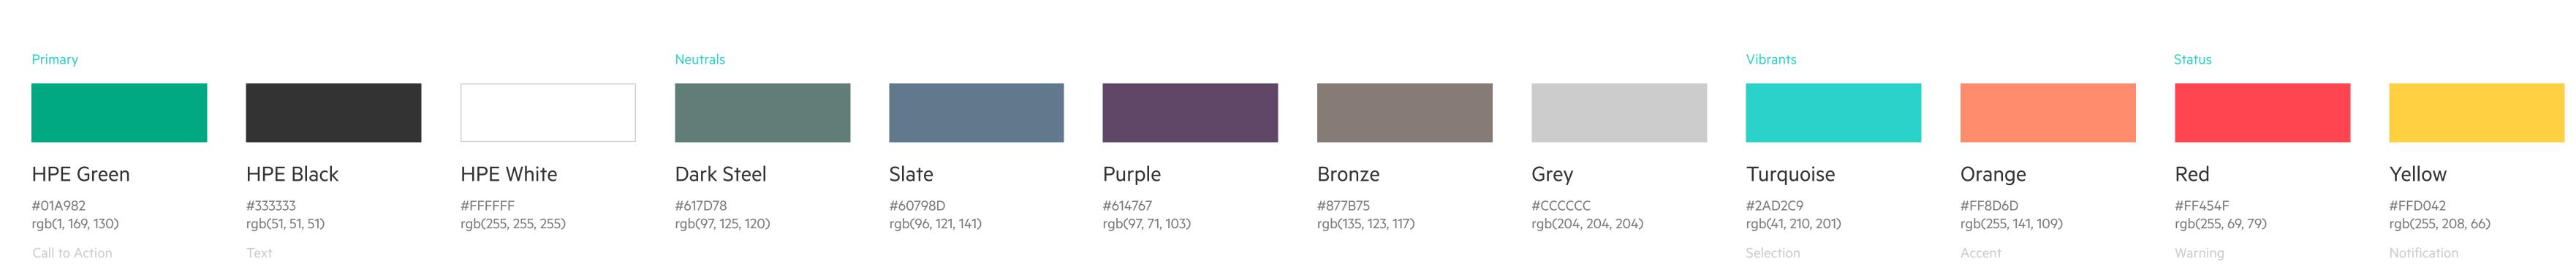

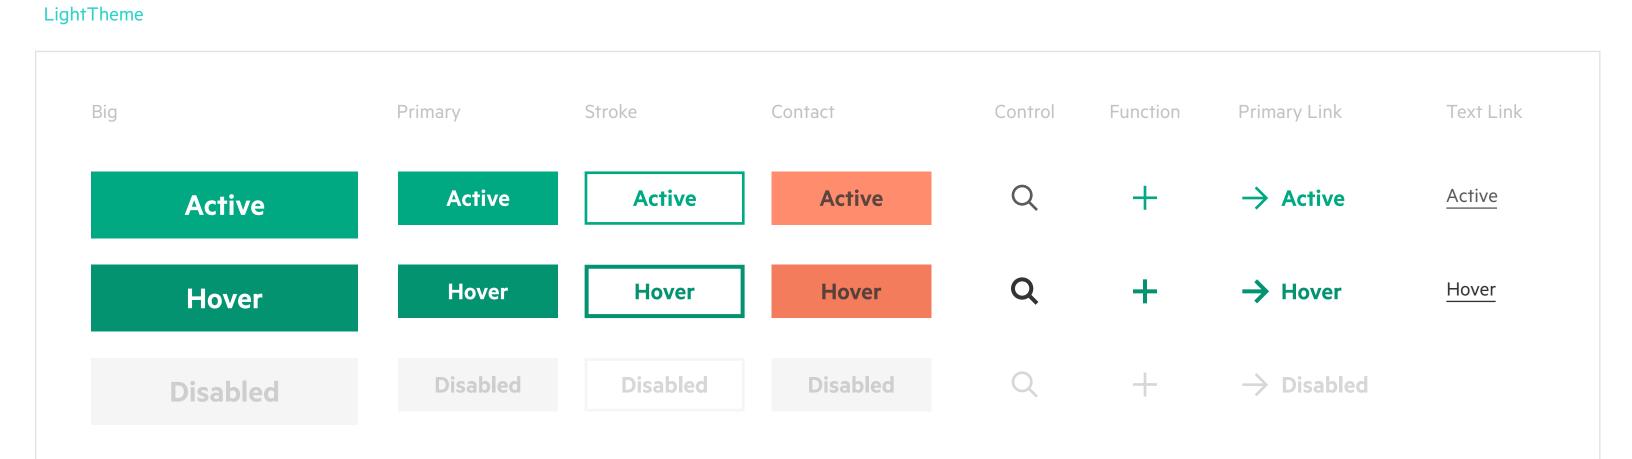

#### COLOR

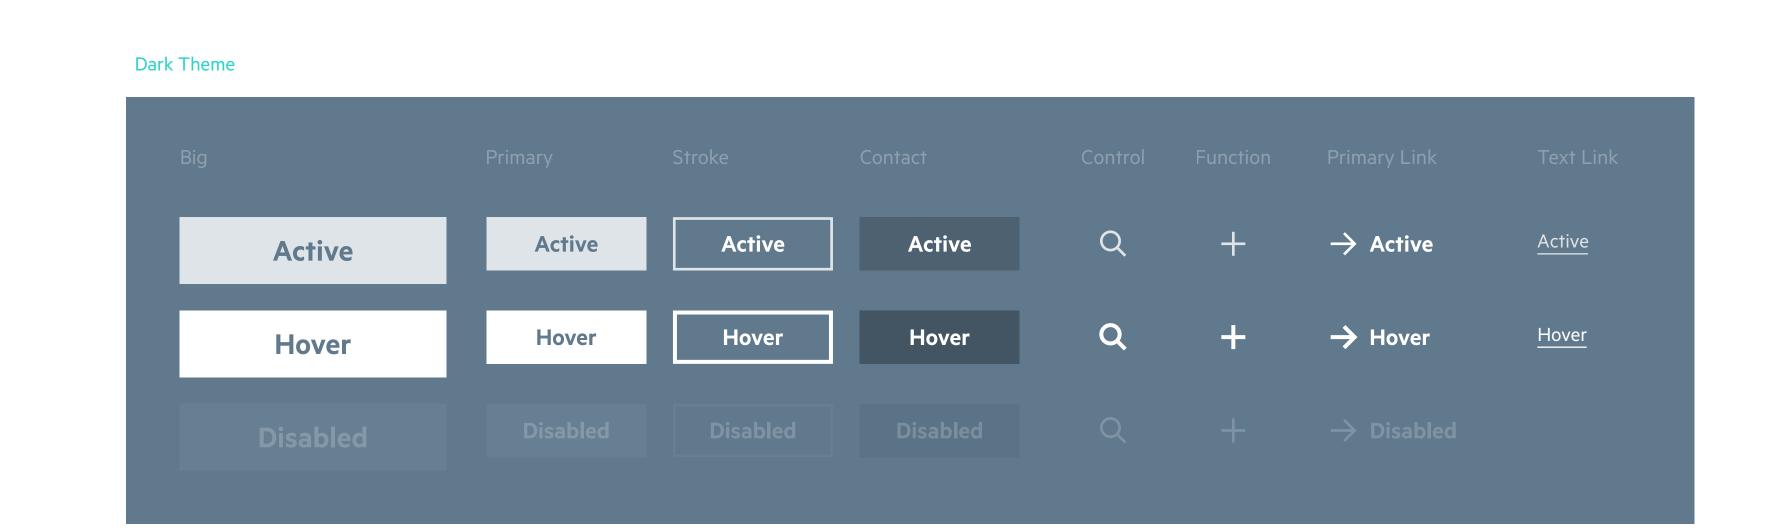

Always use the custom color specifications to maintain color consistency across multiple channels and media.

#### BUTTONS

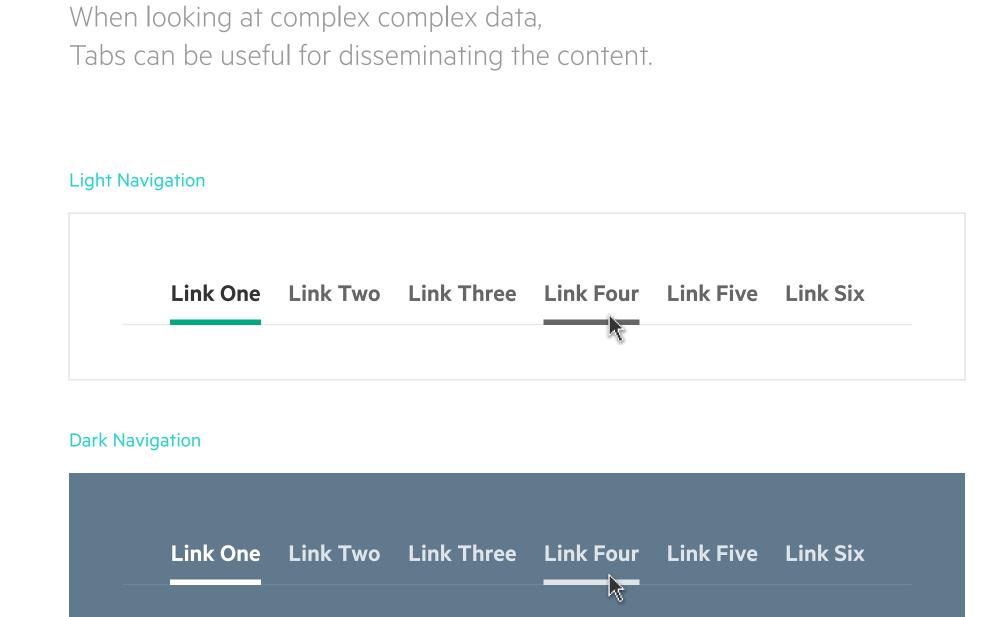

Buttons are convenient tools when you need more traditional actions.

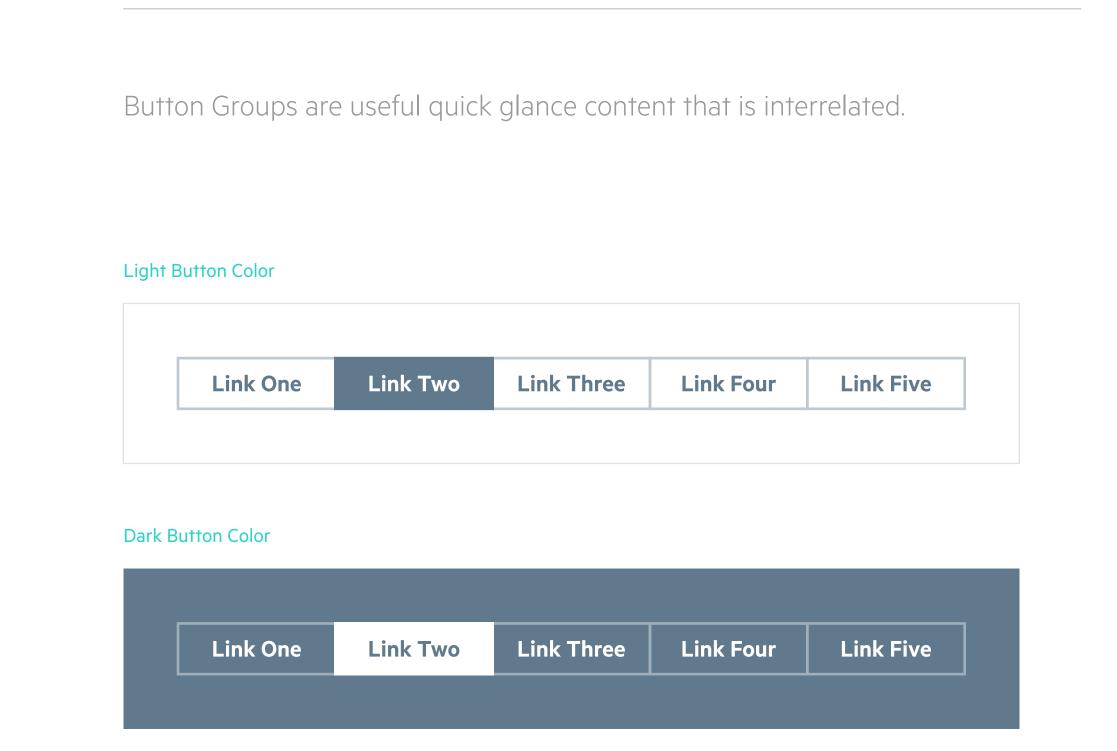

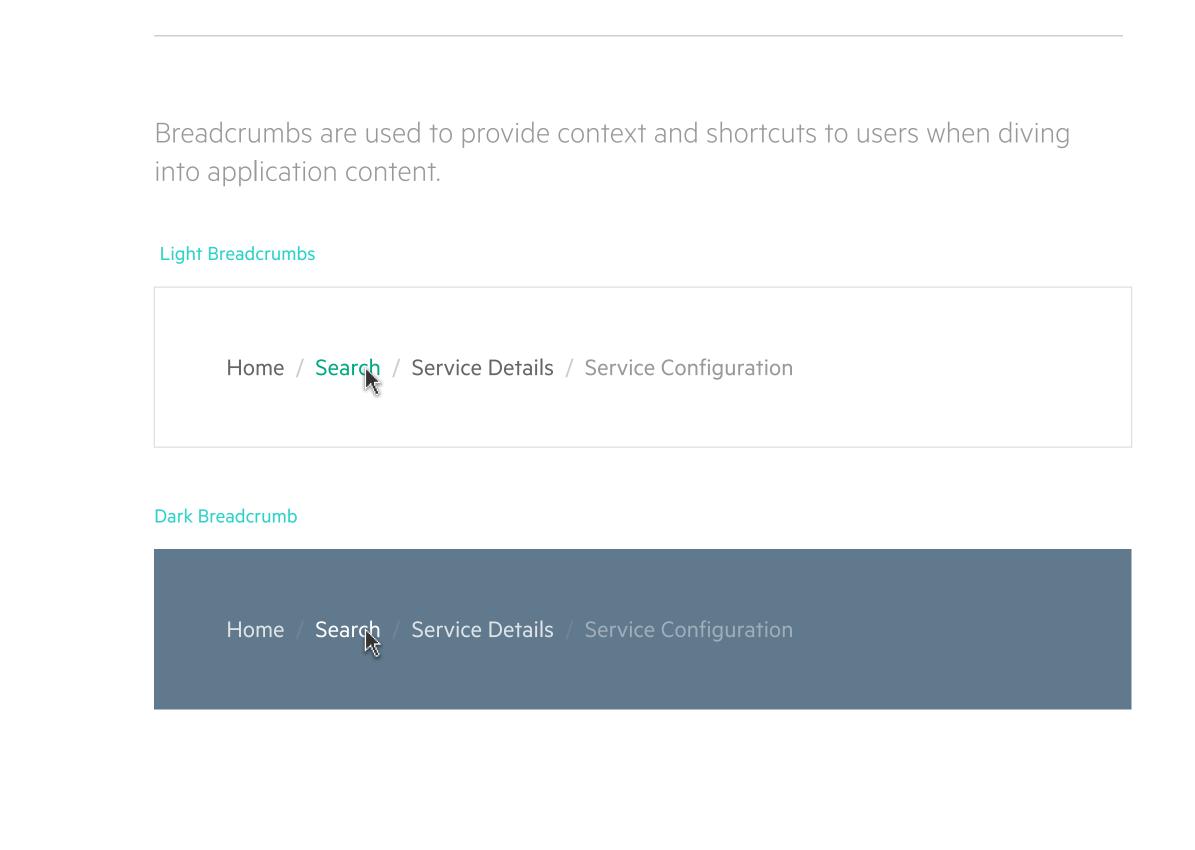

BREADCRUMBS

#### TABS / SUB-NAVIGATION

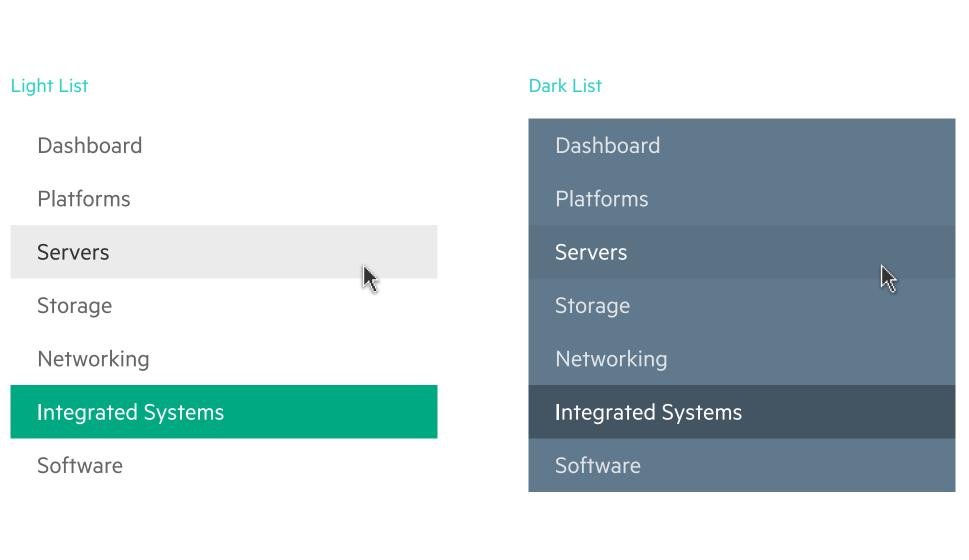

HORIZ BUTTON GROUP

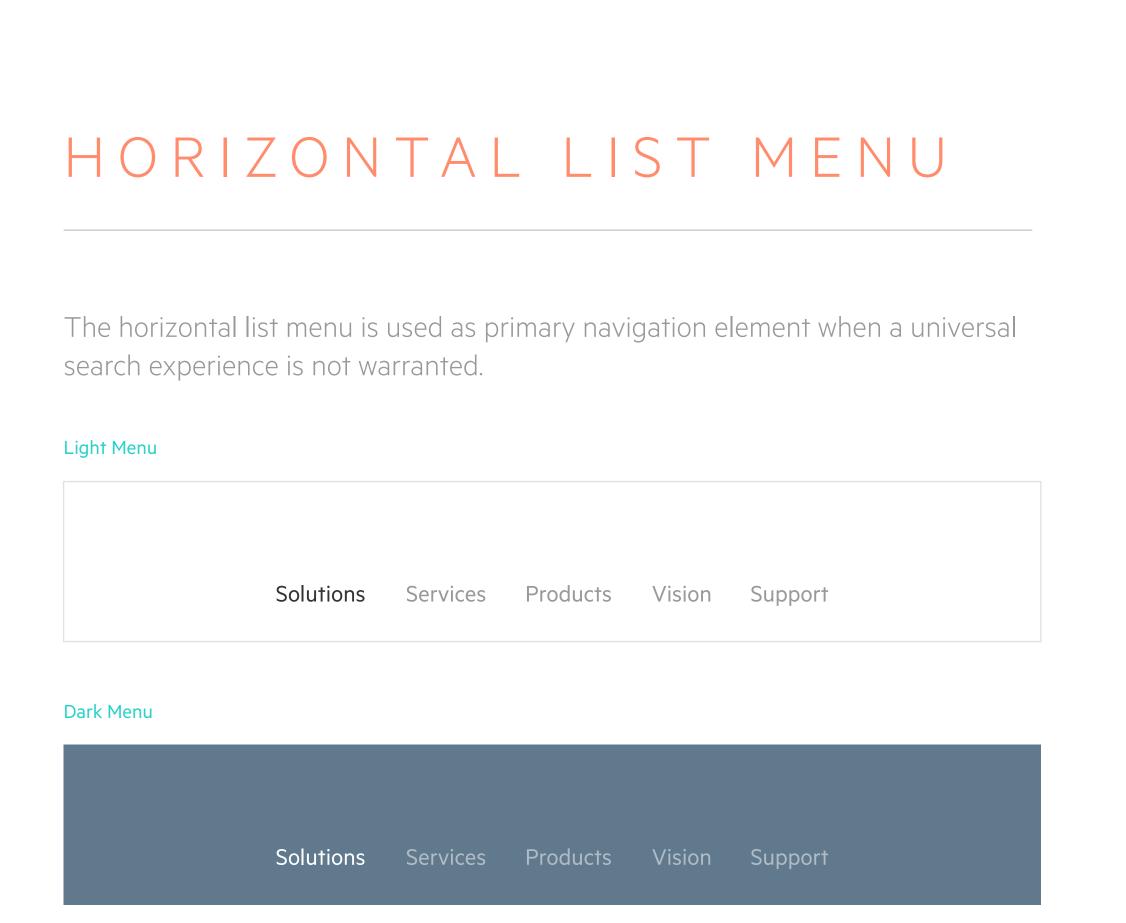

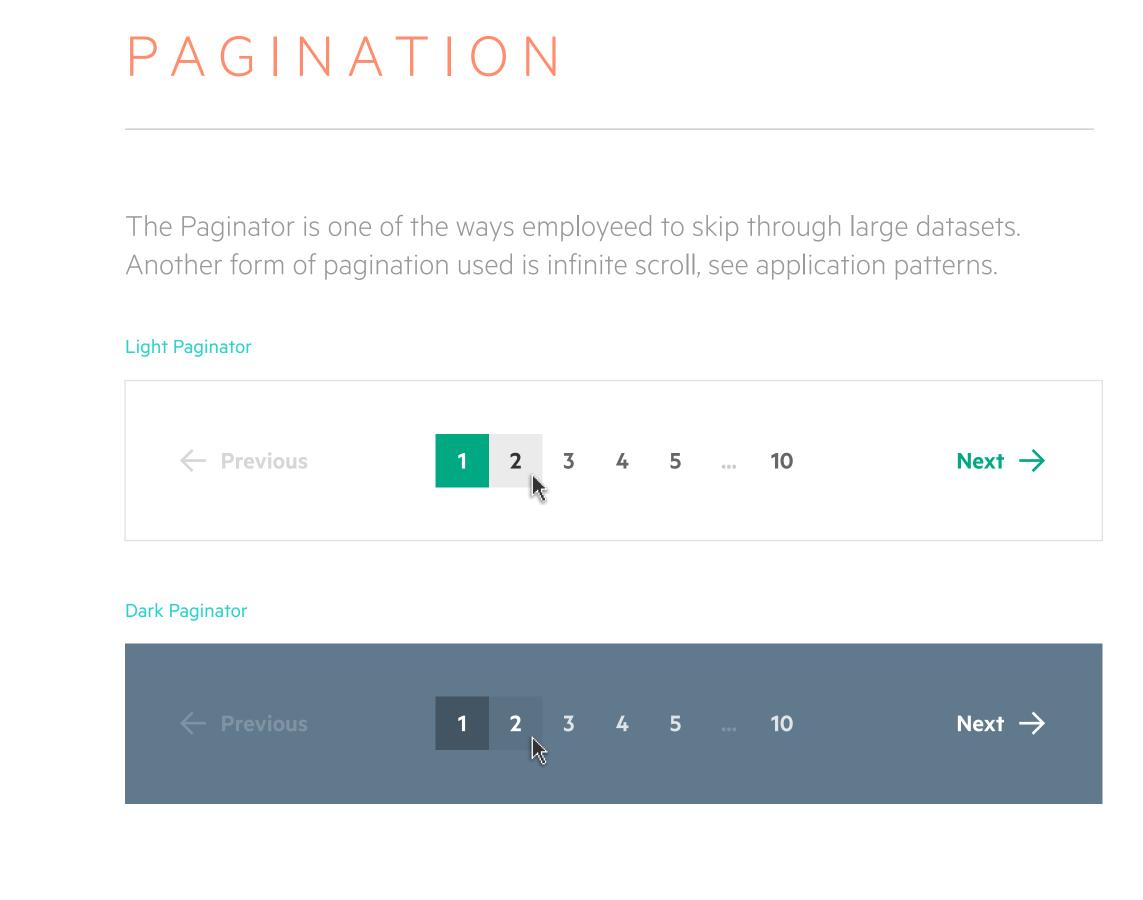

### VERTICAL LIST MENU

Vertical List Buttons are used for primary navigation of applications.

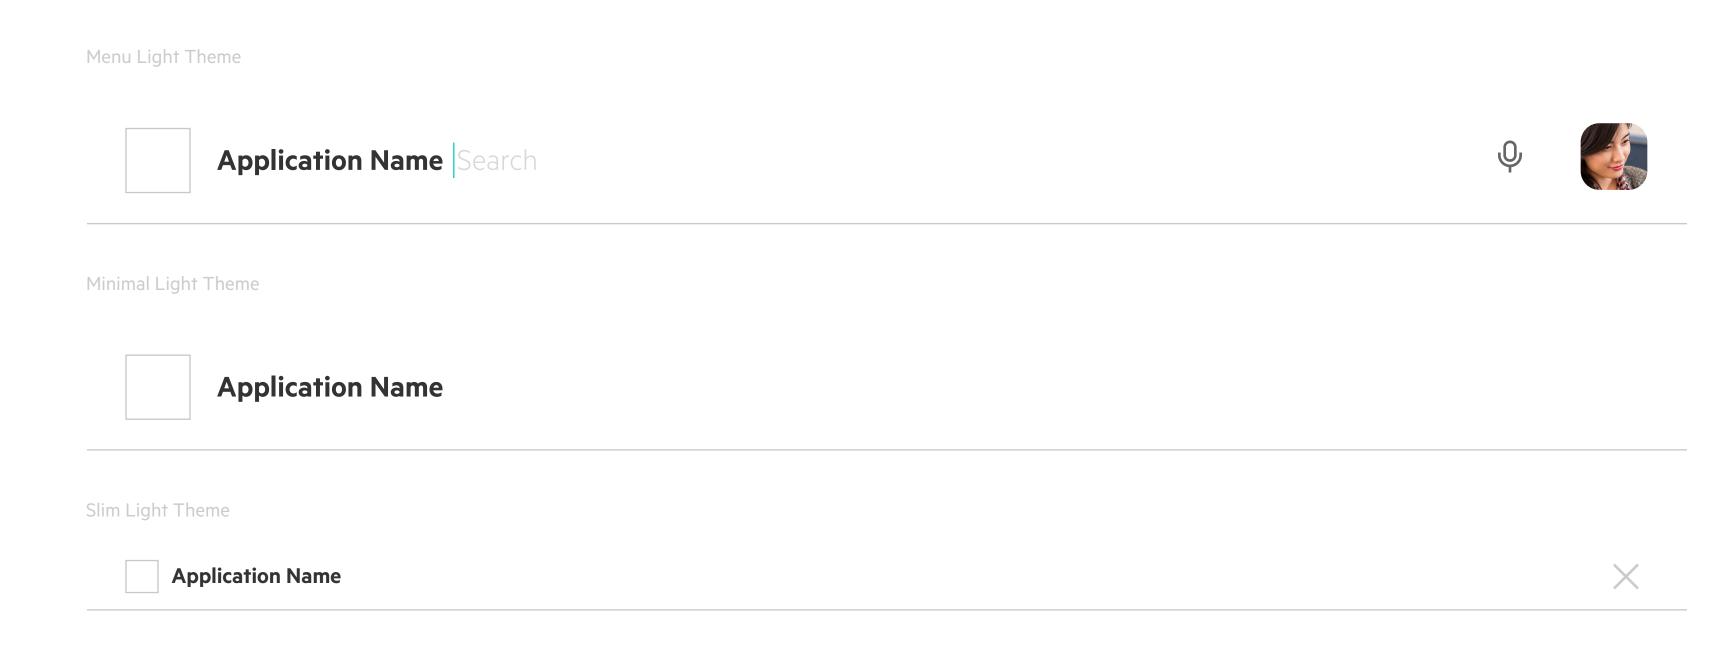

### TOPBAR/HEADER

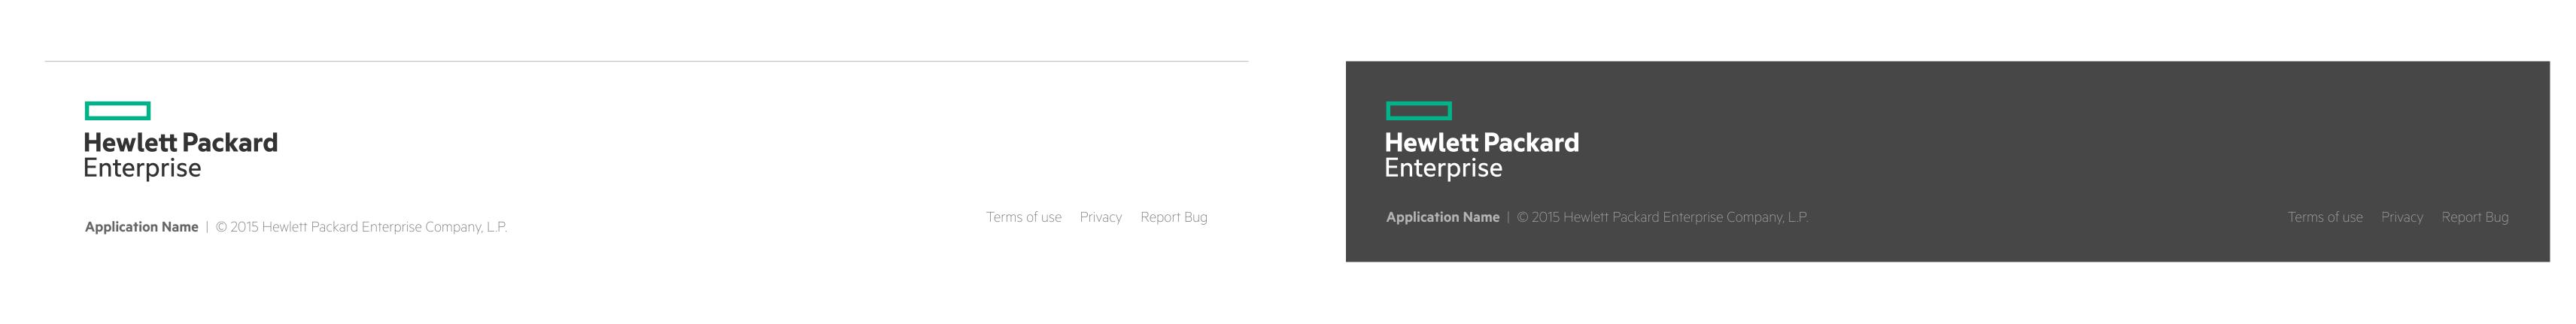

The Topbar is the main navigational pattern for applications. The Topbar can be modified to highlight key actions of the application. As show below it can have search integrated, extentions and other elements as you can see more in the application patterns area.

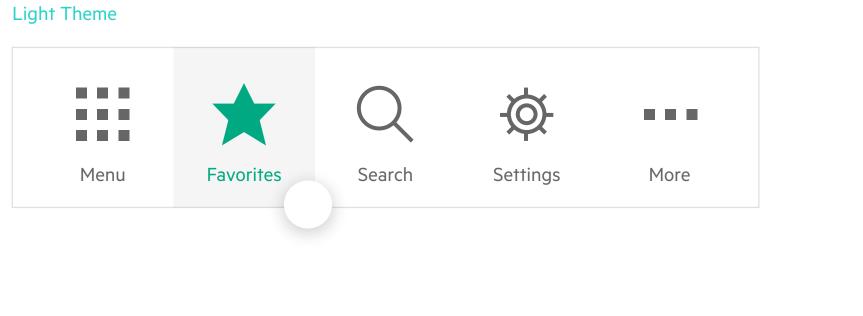

### FOOTER

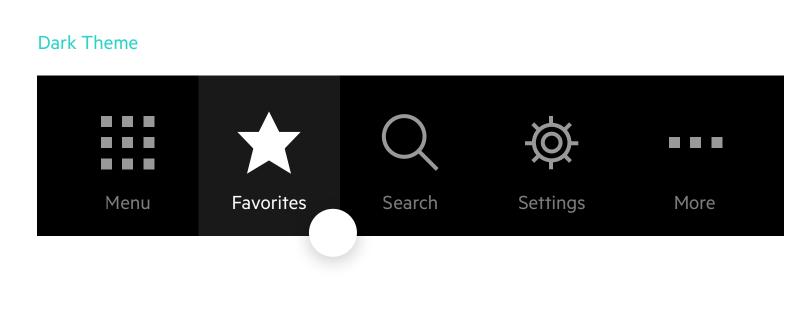

Just as the Topbar is the key component for your application, the Footer must always be present in your application to refence the corporate brand. It should always be at the bottom of your application home. See the Application Template for more details.

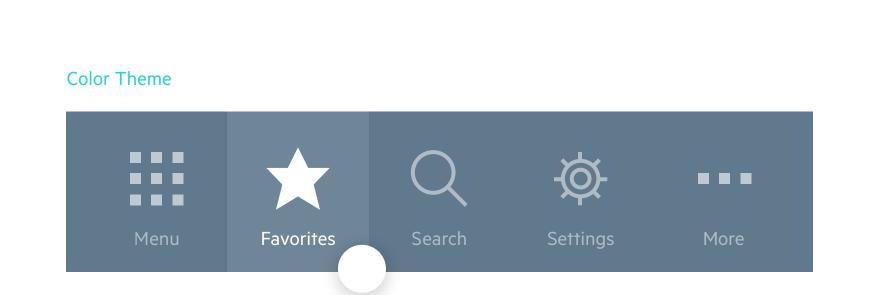

### ICONBAR

When appropiate, an Iconbar can be used as an Alternative to Vertical List Button on small screen sizes and Mobile.

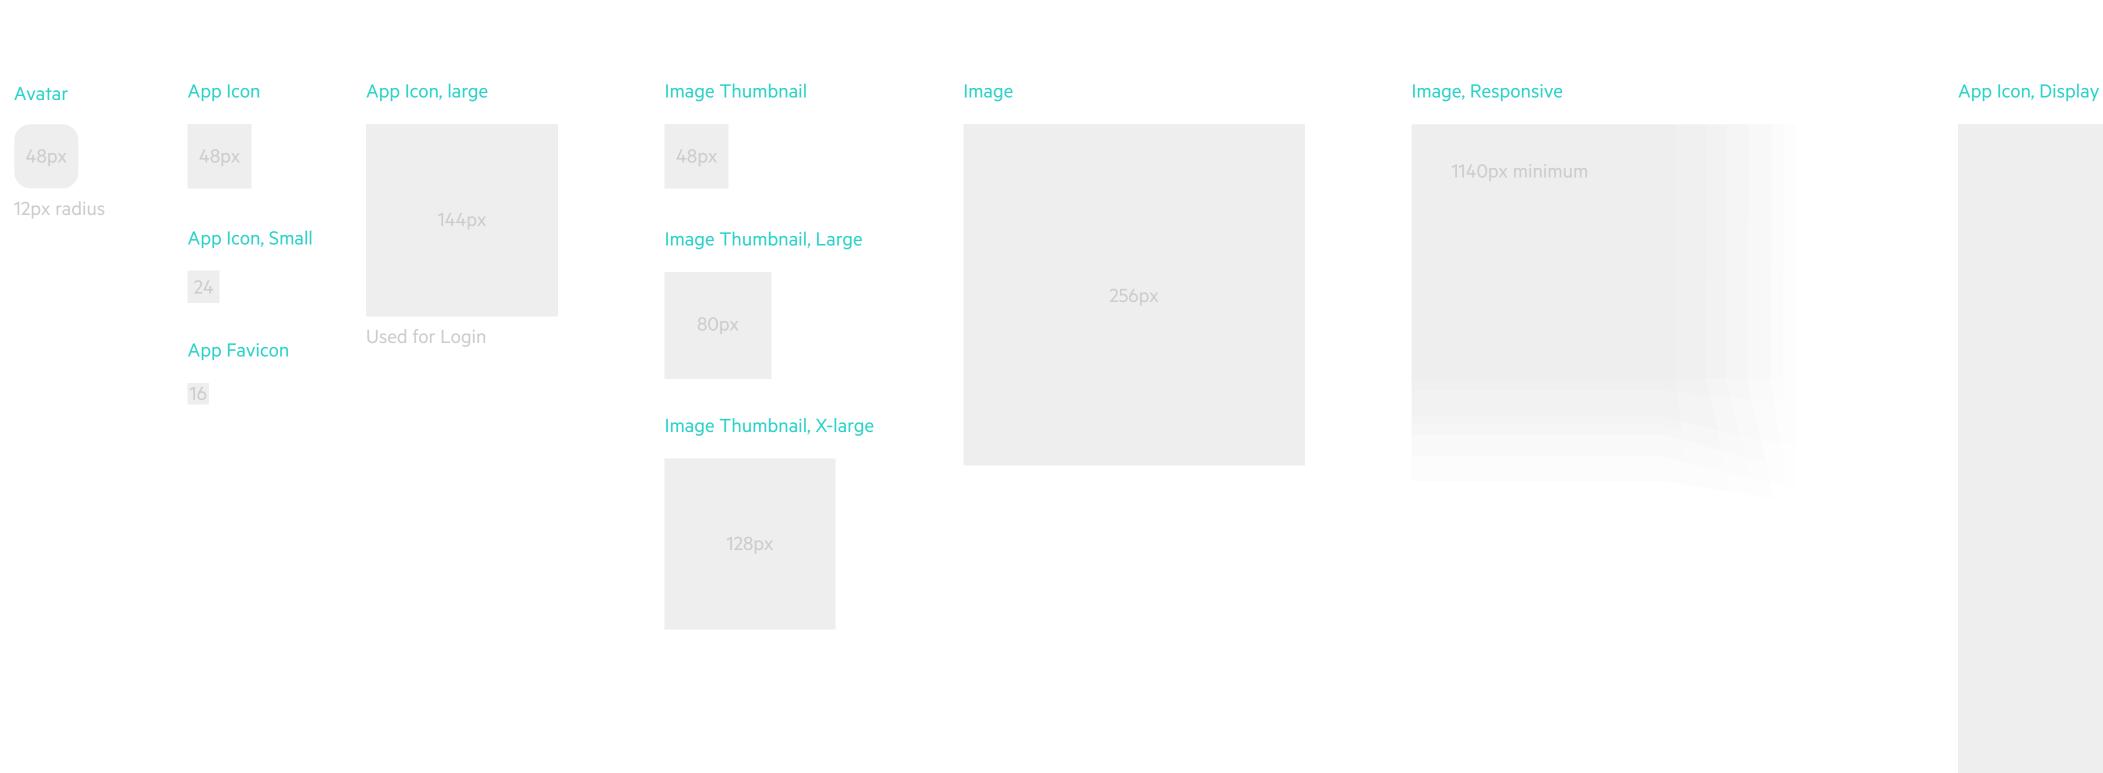

### TOOLBAR

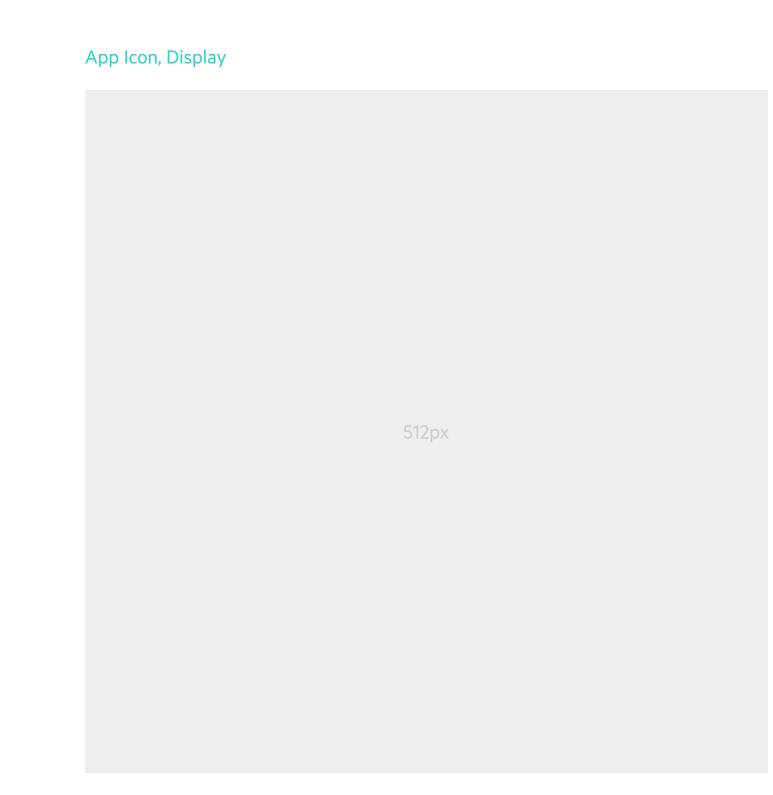

When editing rich text content for applications, the Toolbar provides an extensible set of actions contained in a slim bar.

## IMAGES + MASKS

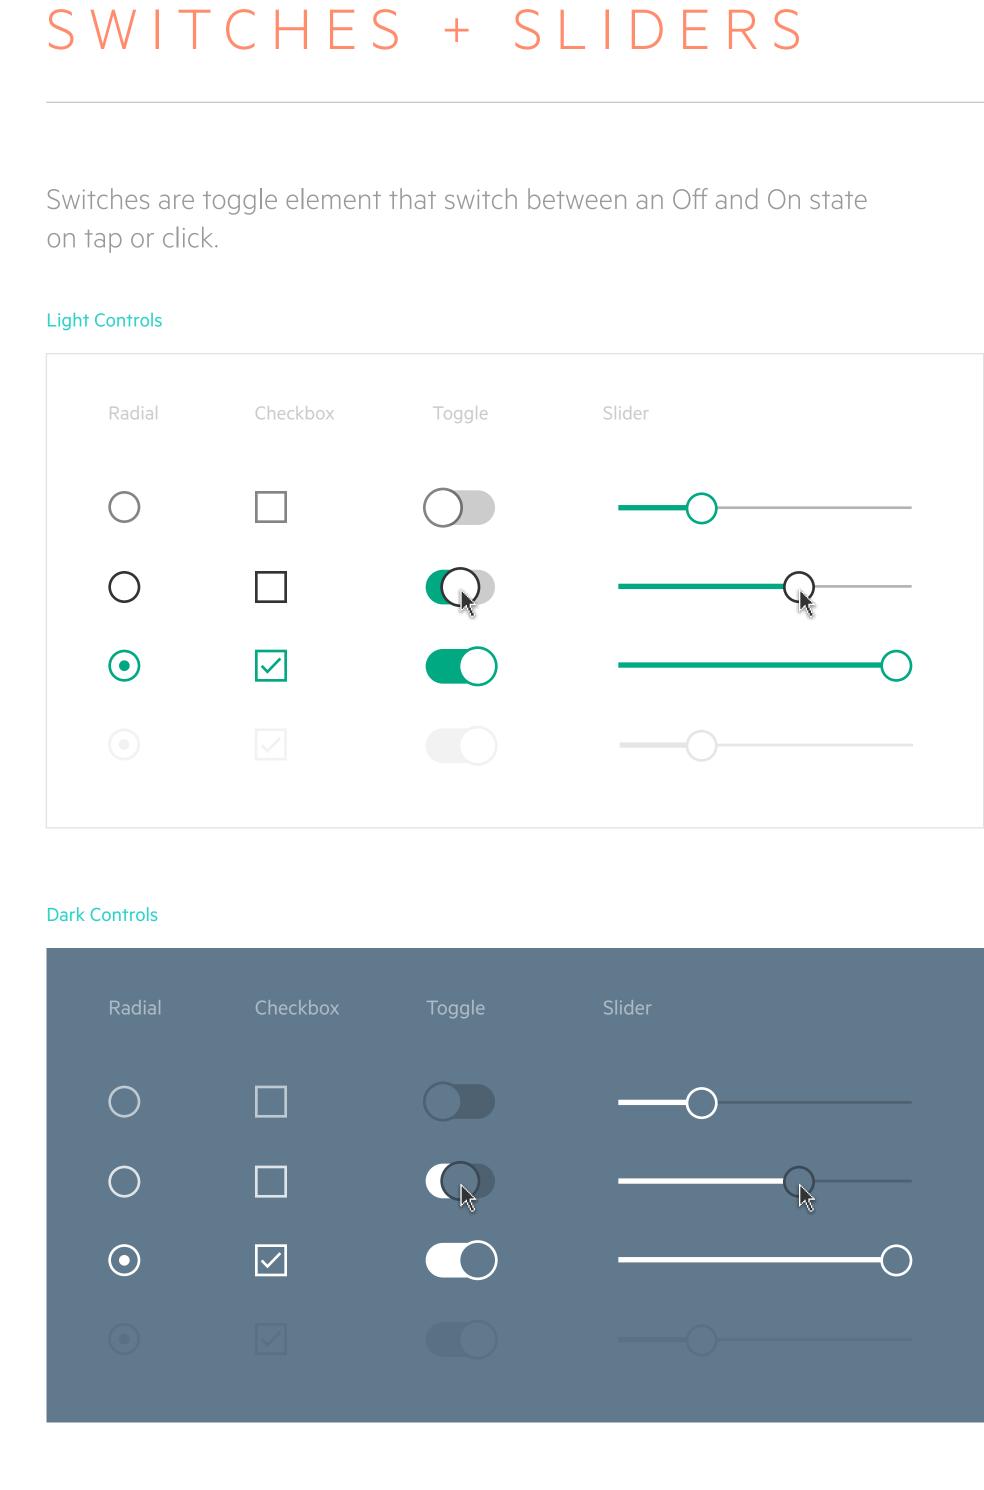

Images are used accross applications to help descibe and support text and actions. There are many different ways to integrate images into your application. Below is o
